MEET THE MASTERMINDS

Omer Arslan

Over 15 years in cyber and architect of three Security Operation Centers (SOCs). Before co-founding CyberNow Labs, held national positions at IBM and Peraton.

Hasan Eksi

More than 10 years of cyber and SOC operations experience. Before co-founding CyberNow Labs, held senior positions at CapitalOne and MasterCard.

MASTERMIND INSTRUCTORS

Since 2018, CyberNow Labs has delivered innovative and hands-on security training enabled by its live Security Operations Center (SOC), featuring real network traffic, integrated security tools and workflows, and real security events. All training is delivered live and online by industry professionals within this digital SOC environment.

16-WEEK S-O-C LIVE TRAINING

Live Online Mondays - Thursdays from 19:00 - 22:00 EDT

<u>WK</u>	<u>DATES</u>	<u>TRAINING FOCUS</u>
MODULE 1: SYSTEM & NETWORK SECURITY		
1	9/5 - 9/7	Network Types, Devices, Configuration, Logs, OSI, TCP/IP.
2	9/11 - 9/14	Network Protocols, Services, Traffic Analysis, Virtualization(ESXI)
3	9/18 - 9/21	Operating Systems, Authentication, Windows Servers, Linux/Unix Logs
MODULE 2: Scripting for Security Automation		
4	9/25 - 9/28	Python Scripting for Security Engineers
5	10/2 - 10/5	Powershell Scripting for Security Engineers
MODULE 3: Attack-Surface Management, Vulnerability Management		
6	10/9 - 10/12	Threat Intelligence, Attack Surface Management, Dark Web Monitoring, Vulnerability Intelligence, Breaches, Malware, IOCs, Threat Groups,
7	10/16 - 10/19	Vulnerability Management Systems and Scanners (Tenable), Web Application Security Scanners (Acunetix), Asset management
MODULE 4: Advanced XDR/EDR Implementation & Management		
8	10/23 - 10/26	SentinelOne XDR Solutions, Console Setup, Groups, and Policies Best-Practices, Tuning, Threat Hunting (Deep Visibility) Agent Deployment
9	10/30 - 11/2	CrowdStrike Falcon XDR Solution, Console Setup, Groups, and Policies Best-Practices, Incident Analysis, Threat Hunting, Response Scripting
MODULE 5: Advanced SIM/SIEM Security Monitoring and Log Analysis		
10	11/6 - 11/9	SIM/SIEM Deep Dive, Splunk Enterprise Security Configuration, Deployment, User roles, Licensing, Application & Index Management, Forwarding, Dashboard Creation, and Detection Rules Creation
11	11/13 - 11/16	Configuring Forwarders, Data & Tuning Inputs, Parsing, Advanced Search, Enrichment, Sub-searches, Monitoring, Troubleshooting, Regex in Splunk
12	11/20 - 11/22 (OFF 11/23)	Elastic Stack Deep Dive, Planning, Deployment, Advanced Searching, Event Analysis, Log & Alert Management
13	11/27 - 11/30	QRadar Deep Dive, Planning, Deployment, Advanced Search, Event Analysis, Log & Offense Management, Rule & Dashboard Creation & Tuning
14	12/4 - 12/7	SOAR Overview, Planning, and Deployment, Integration Configuration, Access Control, Playbook Development, Marketplace Utilization, Content
MODULE 6: Cloud Security Fundamentals		
15	12/11 - 12/14	Cloud Security Monitoring, Logs and Events, AWS CloudTrail, Azure
16	12/18 - 12/21	Cloud Security Monitoring, Logs and Events, AWS CloudTrail, Azure
